EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Masako Ando on 1/14/2004.

The application has been amended as follows:

Please cancel non-elected claims 19-21, 26.

Allowable Subject Matter

2. Claims 1-9, 11-13, 22, 27-35, 37-57, 59-61, 63-70 allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 22, 57, the applicants have presented a persuasive argument (page 18 of the applicants remarks filed on 11/10/2003) that the cited prior art of record fails to disclose a method for annealing a lithium niobate structure comprises the step of heating a lithium niobate structure in a sealed oxygen gas atmosphere substantially lacking in H₂O, without introducing substantial quantities of undesirable free proton into the lithium niobate structure. In the contrary, the closest cited prior art of Chang (US 5,442,719) discloses a method for making lithium niobate structure comprises the step of heating a lithium niobate structure in a sealed oxygen gas atmosphere substantially lacking in H₂O and subjecting the lithium niobate structure to a proton exchange

Art Unit: 1765

method/ introducing proton into the lithium niobate structure (col 3, lines 5-17). The reasons for allowance of claims 9, 35 have been stated in the previous office action (paper no. 28)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
